STATEMENT OF ITEMIZED LEGAL DAMAGES & COLLATERAL IMPACT

PRE-LITIGATION DAMAGES ADDENDUM | PREMIER CROP SYSTEMS LLC

EXECUTIVE STATEMENT & CASE ADDENDUM: This document provides a comprehensive itemization of direct economic losses, statutory liability claims, and severe collateral medical/dental damages resulting from Premier Crop Systems LLC's unlawful termination, ERISA violations, and executive bad faith. Beyond core wage and benefit liabilities, this addendum documents the catastrophic physical and financial toll inflicted by executive cowardice and broken leadership agreements.

I. EXECUTIVE COWARDICE, BROKEN AGREEMENTS & PROCEDURAL BAD FAITH

Repudiation of Verbal Commitments: Employment conditions and organizational structure were originally established under explicit verbal agreements with Keith Reimer. Following Vice President George Rieck's insertion into development leadership, these prior commitments were unilaterally abandoned without pushback or executive oversight, creating an environment of arbitrary, tyrannical management.

Termination via Email & Refusal of Exit Meeting: Despite years of high-density Principal-level engineering contributions, direct VP reporting, and last-minute Agentic AI integrations (Claude & GitHub Copilot) driving four consecutive years of 10% YoY revenue growth, executive leadership executed the discharge strictly via cold email. Management actively refused a formal video call requested by the employee, demonstrating a complete breakdown of basic professional respect and executive backbone.

II. DIRECT COLLATERAL HEALTH & DENTAL DESTRUCTION

1. Forced Discontinuation of Zepbound ($500/Mo Out-of-Pocket) & Spinal Exacerbation

Following the unlawful abrupt cutoff of income, the employee lost the financial capacity to maintain $500/month out-of-pocket prescriptions for Zepbound, prescribed for Sleep Apnea and Obesity management. The forced, abrupt cessation of this medication induced rapid rebound weight gain, directly increasing mechanical load and structural strain on a cervical spine already severely compromised by spinal stenosis. This physical setback directly sabotaged months of active medical rehabilitation across 37 physical therapy sessions.

2. Destruction of $4,000 Out-of-Pocket Invisalign Orthodontic Investment

The employee invested $4,000 out-of-pocket in Invisalign orthodontic treatment based on expected compensation stability. The sudden, bad-faith wage termination rendered the employee unable to purchase replacement retainers or maintain scheduled orthodontic follow-ups. Consequently, the teeth shifted, completely destroying the $4,000 financial investment and requiring the entire treatment process to be restarted from scratch.

III. ITEMIZED DAMAGES & STATUTORY CLAIM BREAKDOWN

Damages Category	Factual & Statutory Basis	Itemized Financial Impact
Principal Wage Arbitrage & Wage Differential	Senior/Principal scope (VP reporting, Infragistics vendor leadership, Discord SDK 2 collaboration with Brian Lagunas, Agentic AI delivery) paid at $120k vs. $210k-$270k Irvine market benchmark. Refused raise to $140k.	**$60,000 - $100,000 / Year (Back Pay & Front Pay)**
ERISA § 510 Retaliation & Plan Violations	Retaliatory PTO denials linked to $30,194.55 in health claims, combined with delinquent $107.04 401(k) loan remittance causing account default alert.	**Statutory Penalties + $110/day ERISA Trustee Fines**
FEHA / CFRA Statutory Leave Interference	Recorded 'We do not want you to take a sick day' instruction, denial of accrued PTO, and termination following Dr. Tzuang's March 10 note.	**Compensatory, Emotional Distress & Statutory Damages**
Collateral Medical: Zepbound Interruption & Rebound	Forced halt of $500/mo Sleep Apnea/Obesity treatment; resulting weight gain increasing cervical spine mechanical load post-37 PT sessions.	**$6,000 / Year Direct Cost + Exacerbated Spinal Physical Injury**
Collateral Dental: Invisalign Investment Loss	Inability to pay for retainers/follow-ups following income cutoff, destroying $4,000 out-of-pocket orthodontic treatment.	**$4,000 Direct Out-of-Pocket Loss + Full Restart Expense**
Global Settlement Demand	Pre-litigation global resolution demand across all ERISA, FEHA, CFRA, wage differential, and collateral damage claims. (10% / $250k pledged to charity).	**$2,500,000.00 Global Lump-Sum Demand**

IV. CONCLUSION & ATTORNEY TRIAL NOTEBOOK ACTION PLAN

Immediate Litigation Integration: Litigation counsel is instructed to incorporate these itemized collateral medical and dental losses ($4,000 Invisalign loss, $500/mo Zepbound spinal exacerbation) into all administrative filings (CRD / DOL) and formal damages demands. Furthermore, George Rieck's refusal of a requested exit video call and abandonment of Keith Reimer's verbal agreements shall be emphasized during depositions as core evidence of executive malice and bad-faith retaliatory discharge under California law.
